

## What is AIDS?

When people get infected with HIV, their immune system gradually deteriorates. Several years to about 10 years pass without subjective symptoms, after which diseases develop which the person would naturally have suppressed with their own immune system. This state is called AIDS (Acquired Immunodeficiency Syndrome).

**HIV infection**

**Asymptomatic stage**  
Several years to about 10 years

**AIDS development**

## What are sexually transmitted infections?

This is a general term for diseases transmitted during sexual activity. There are 10 or more diseases, including syphilis and genital chlamydia. Sexually transmitted diseases can cause infertility without remarkable symptoms. In addition, sexually transmitted infections increase the risk of HIV infection.

# Consultations and tests on HIV / AIDS, Sexually Transmitted Infections

## Q What kind of tests are provided by the City of Nagoya?

**A** HIV, syphilis and genital chlamydia tests are available on an anonymous basis, free of charge. Test items vary depending on the health center. Please refer to the Test Schedule for details.

## Q When should I get tested?

**A** You should avoid "window periods(\*)" as mentioned below; For HIV, after 3 months or later; for syphilis, after the period of 3 weeks to 2 months or later; for genital chlamydia, after 3 weeks or later.

\* The window period is the period in which accurate test results cannot be obtained.

## Q If I am found to be infected with HIV, syphilis or sexually transmitted infections, what should I do?

**A** Consult a doctor as soon as possible. Health centers can help you by introducing you to medical institutions, as well as issuing a reference letter to the hospital. If you are infected by HIV, face-to-face consultations are available.

If you get properly treated,

your physical condition will be stable

you can continue your work or study

you can prevent transmission to your partner

## Test Schedule

● Free of charge / anonymous ● Tests are not available from December 29th to January 3rd and on public holidays. ● Interpreters are not available.
